

Marie-Josée Perreault dedicated her career to the field of education, holding leadership positions at both the elementary and secondary levels.

Her professional journey reflects a deep commitment to youth development, particularly students facing challenges, as well as to recognizing and supporting educational staff.

Driven by a passion for people, she has always placed interpersonal relationships at the heart of her work. This approach naturally led her to become actively involved in various committees, including municipal initiatives and an organization dedicated to preventing violence against children.

Her involvement with FADOQ is a natural extension of her long-standing social commitment. As a board member, she aims to draw on her management experience, her attentive listening skills, and her integrity to support initiatives that promote the wellbeing of older adults.
